

## Adding whole tens

---

### Addition Practice Worksheet

Find the sums.

$90 + 30 = \underline{\hspace{2cm}}$

$90 + 90 = \underline{\hspace{2cm}}$

$10 + 70 = \underline{\hspace{2cm}}$

$30 + 60 = \underline{\hspace{2cm}}$

$90 + 40 = \underline{\hspace{2cm}}$

$40 + 30 = \underline{\hspace{2cm}}$

$80 + 40 = \underline{\hspace{2cm}}$

$80 + 30 = \underline{\hspace{2cm}}$

$10 + 40 = \underline{\hspace{2cm}}$

$20 + 40 = \underline{\hspace{2cm}}$

$10 + 80 = \underline{\hspace{2cm}}$

$10 + 80 = \underline{\hspace{2cm}}$

$70 + 30 = \underline{\hspace{2cm}}$

$10 + 80 = \underline{\hspace{2cm}}$

$30 + 40 = \underline{\hspace{2cm}}$

$60 + 80 = \underline{\hspace{2cm}}$

$40 + 70 = \underline{\hspace{2cm}}$

$60 + 90 = \underline{\hspace{2cm}}$

## Adding whole tens

---

### Addition Practice Worksheet

Find the sums.

$90 + 30 = \underline{120}$

$90 + 90 = \underline{180}$

$10 + 70 = \underline{80}$

$30 + 60 = \underline{90}$

$90 + 40 = \underline{130}$

$40 + 30 = \underline{70}$

$80 + 40 = \underline{120}$

$80 + 30 = \underline{110}$

$10 + 40 = \underline{50}$

$20 + 40 = \underline{60}$

$10 + 80 = \underline{90}$

$10 + 80 = \underline{90}$

$70 + 30 = \underline{100}$

$10 + 80 = \underline{90}$

$30 + 40 = \underline{70}$

$60 + 80 = \underline{140}$

$40 + 70 = \underline{110}$

$60 + 90 = \underline{150}$
