

## Adding whole tens

---

### Addition Practice Worksheet

Find the sums.

$70 + 40 = \underline{\hspace{2cm}}$

$80 + 30 = \underline{\hspace{2cm}}$

$40 + 40 = \underline{\hspace{2cm}}$

$80 + 80 = \underline{\hspace{2cm}}$

$60 + 30 = \underline{\hspace{2cm}}$

$50 + 20 = \underline{\hspace{2cm}}$

$60 + 70 = \underline{\hspace{2cm}}$

$60 + 10 = \underline{\hspace{2cm}}$

$30 + 10 = \underline{\hspace{2cm}}$

$30 + 70 = \underline{\hspace{2cm}}$

$40 + 80 = \underline{\hspace{2cm}}$

$70 + 30 = \underline{\hspace{2cm}}$

$30 + 70 = \underline{\hspace{2cm}}$

$80 + 20 = \underline{\hspace{2cm}}$

$70 + 80 = \underline{\hspace{2cm}}$

$40 + 80 = \underline{\hspace{2cm}}$

$60 + 60 = \underline{\hspace{2cm}}$

$40 + 70 = \underline{\hspace{2cm}}$

## Adding whole tens

---

### Addition Practice Worksheet

Find the sums.

$70 + 40 = \underline{110}$

$80 + 30 = \underline{110}$

$40 + 40 = \underline{80}$

$80 + 80 = \underline{160}$

$60 + 30 = \underline{90}$

$50 + 20 = \underline{70}$

$60 + 70 = \underline{130}$

$60 + 10 = \underline{70}$

$30 + 10 = \underline{40}$

$30 + 70 = \underline{100}$

$40 + 80 = \underline{120}$

$70 + 30 = \underline{100}$

$30 + 70 = \underline{100}$

$80 + 20 = \underline{100}$

$70 + 80 = \underline{150}$

$40 + 80 = \underline{120}$

$60 + 60 = \underline{120}$

$40 + 70 = \underline{110}$
