

Read and illustrate

Grade 3 Reading Worksheet

First, read the paragraph:

At Robot School, inventors create amazing robots! This week, Mr. Sparks built a giant robot that is taller than him. It looks like a person, with just a few differences:

1. The robot's head, body, arms and legs are shaped like rectangles!
2. The robot's ears are lightbulbs that light up when he hears something.
3. His eyes are red.
4. He doesn't have a nose, but he does have a big mouth!
5. He has long hair, which looks like spaghetti.

Then, draw a picture of what you read. Include all the details!
