

Animals in groups or alone

Grade 3 Science Worksheet

Some animals live in groups. Other animals live mostly alone.

Write **group** or **alone** for each animal.

sharks

penguins

giraffes

beavers

male polar bears

honey badgers

meerkats

tigers

Look for a pattern. What kinds of animals live alone? What kind live in groups? (*Hint: Think about what they eat!*)

Answers

Write **group** or **alone** for each animal.

sharks

alone

penguins

tigers

alone

Look for a pattern. What kinds of animals live alone? What kind live in groups? (*Hint: Think about what they eat!*)

Meat-eating animals often live alone. Plant-eating animals
who are prey for meat-eaters often live in groups.
